

# Join us for GLCPS's 21<sup>st</sup> Century Classroom Campaign!!

Last year, many of you helped us realize a challenge grant with the Amelia Peabody Foundation to upgrade our electricity in the 90-year-old building that we lease. Thank you for helping us to accomplish this major project! Now, we are positioned to ensure that the basic physical learning environments – our classrooms – support 21<sup>st</sup> century learning.

GLCPS's 21<sup>st</sup> century classrooms include interactive white boards and accompanying software to take advantage of the vast virtual curriculum and laboratories that are now available; modular desk sets that allow our teachers to implement our school's range of instructional practices; and student computers to help realize our goal of providing one computer for each student.

Special thanks to the Jacobs Family, Crapo Charitable Foundation and Acushnet Foundation through the Community Foundation of Southeastern Massachusetts for helping to support our campaign.

AP Biology students practicing their science Presentation of Learning using a SMART Board.

ANY AMOUNT YOU GIVE WILL MAKE A DIFFERENCE!!!

Students, parents and staff raised over \$5,000 for classroom needs during spring walk-a-thon. To date we have raised \$40,000 toward our goal of \$216,000.

**For more information contact Stephanie Wick@ swick@glcps.org. Contributions of any amount are appreciated and may be returned in the enclosed remittance envelope. You can also make your donation online at glcps.org.**
